Los Angeles, CA | echou024@ucr.edu | (424) 392-5872 | evachoudharyportfolio.netlify.app/ | linkedin.com/in/evachoudhary/

EDUCATION

B.S. in Computer Science with Business Applications University of California, Riverside *December 2024*

- **Relevant Coursework:** Web Development, Artificial Intelligence, Machine Learning, Software Construction, Data Analysis/Mining, Database Management, Data Structures and Algorithms
- **Awards:** Dean's Honor List (2021, 2022, 2023, 2024)

TECHNICAL SKILLS

Programming Languages: Python, C/C++, SQL, Dart, Assembly

Web/Mobile Development: React.js, Next.js, Angular.js, HTML, CSS, jQuery, Dart, Flutter, React Native

Database: MySQL, PostgreSQL, MongoDB, Firebase, SQLite

Cloud & Tools: AWS, GCP, Git, GitHub, JIRA, Firebase, REST APIs, Stripe, Clerk

Libraries & Frameworks: Pandas, NumPy, Scikit-learn, Flask, Django, LangChain, Llama

Machine Learning & AI: OpenAI, Gemini, Hugging Face, Pinecone, LangChain, Llama

Certifications: Oracle Cloud Infrastructure Generative AI Professional (2024), Certified Scrum Developer (2023), Advanced Certified Scrum Developer (Expected Q4 2024)

INTERN EXPERIENCE

Software Engineering Fellow Headstarter AI, *Remote* *July 2024 - September 2024*

- Developed a full-stack RAG-based AI "Rate My Professor" assistant using **Next.js**, **Node.js**, **Pinecone**, and **OpenAI**, enabling personalized professor recommendations through vector-embedded searches and natural language responses.
- Implemented a **RESTful API** with **Next.js** for seamless communication between frontend, **Pinecone**, and **OpenAI**, optimizing performance with streaming responses and 384-dimensional embeddings for rapid, real-time queries.

Full Stack Developer Intern Scrum Adventures, Long Beach, CA *June 2023 - August 2023*

- Launched Enterprise Dashboard with **Django** and **Heroku**, enabling client teams to track productivity metrics and visualize progress across their projects, driving 30% adoption within client organizations.
- Created Timebox feature, reducing task tracking time by 40% with **Dart** widgets and efficient data syncing with **Firebase**.
- Conducted unit and end-to-end testing with **Pytest** and **Selenium**, reducing bugs by 25%.

PROJECTS

Dumpster | [GitHub Link](#) Personal Project *Current*

- Led a team of 3+ developers to create an AI photo curation mobile app using **React Native** and **TypeScript** that allows capturing, organizing, and sharing photos.
- Achieved 95% image classification accuracy using **Gemini Pro Vision API** and **Firebase**, increasing collaboration by 30% via dumpID codes.

Reviso | [GitHub Link](#) Personal Project *August 2024*

- Developed an AI flashcard web application with **Next.js**, **Clerk**, **Google's Gemini Model**, and **Firebase**, gaining 100+ users in the first week.
- Designed a fully responsive UI with dynamic swipeable and grid views, using custom **CSS** and **Material UI** components.
- Implemented **CI/CD** pipelines with **Vercel**, automating deployment and improving deployment speed by 20%.

LEADERSHIP EXPERIENCE

Vice President of Innovation Artificial Intelligence Student Collective (AISC), UCR *June 2023 - Present*

- Lead a multi-sector team to establish UCR's first AI literacy initiative, gaining over 300+ members in 1 year.
- Developed and managed AI project curriculums covering topics like natural language processing, computer vision, and AI ethics, benefiting over 100+ students across 8-week programs.
- Published weekly Substack newsletters on AI news, career events, and internships for 200+ subscribers.
